IBEW 21 Bargaining Update #23

June 30, 2009- 9:00 am

Negotiations Resumed This Morning

Bargaining continued with AT&T late into the evening Monday night. Many issues were discussed including health care, Prem Tech, and pensions. Some progress has been made but many items still remain unresolved. Bargaining resumed early this morning. Our Union Bargaining Teams are committed to reaching a contract which rewards our dedicated hard-working members.

Negotiations have been very fluid. There continues to be a lot of back and forth discussions on how to resolve the major issues facing our members. When information that is more detailed is available we will release that information. Please check back often for the latest updates.

We are still working under the terms and conditions of our existing contract. All members are to continue to report and work their normal schedules and follow all safety and work rules without deviation.

We stand in solidarity!
