

## **Bargaining Report January 13, 2010**

The Union and the Company met for the first time since October 8, 2009 in an effort to move forward in our contract negotiations. Discussion evolved around being productive with meaningful dialogue that will help us reach our ultimate goal.

Both sides recognize that we have a long way to go, with many unresolved issues including but limited to:

- **Prem-tech**
- **Contractors**
- **Pensions**
- **Movement of Work**
- **Health care**
- **Wages**
- **Job Security**

We are focused on bringing a fair and equitable contract to our members. Thank you for your continued support. I

In Solidarity,

Your Bargaining Team
