

CWA at AT&T **1 Union Fight Future**

Our contracts with AT&T expire on April 4, 2009. We need to be ready for the struggle ahead. That's why we're gearing up for the long haul to get fair contracts with AT&T.

Don't be scared...be prepared!

Here's a few tips to help you prepare for a strike:

-  **Budget** - Get all your bills up to date, brown-bag your lunch...and maybe you can hold off on that new home theatre system for a few more months.
-  **Taxes** - File your tax return early so you can get your refund early – then bank it when you get it.
-  **Prepare Your Family** - Explain why we must do “whatever it takes” even if it means some short-term sacrifices. Tell them how they can help support the strike.

Remember, we're not in this fight alone. We're 170,000 strong across the country and we're ready to fight together!

D⁴  ***Whatever it takes...***

In Unity-Strength & Solidarity:

Steve Tisza, President CWA Local 4250
