AT&T "Legacy T" Bargaining Report #40

May 28, 2009

We're sorry many of you had problems getting on the AT&T e-Meeting last night. You can watch it on <http://www.cwa-union.org/emeeting>.

The call covered the small amount of progress that is being made at the tables on a couple of the issues. However, you must understand that we are still VERY FAR APART on all of our key issues – particularly Health Care cost shifting for active workers and retirees, and employment security. Many of the Company's retrogressive demands are still on the table. Hopefully we will be meeting with the Company again tomorrow and have more to report from our table.

The Bargaining Team will join Local 2252 for a rally at an AT&T building in Virginia today. We hope you are all keeping up the pressure at work, contacting your legislators, and participating in every mobilization activity possible.

Randall Stephenson
at&t Corp. CEO
