

Is Anybody out there? Is Anybody listening?

Here's something our political leadership, political commentators are NOT discussing..
Most news organizations are ignoring this topic too *Might you provide an explanation?*

CNN's [Lou Dobbs Tonight](#) use to cover this issue (*one of the very few news programs to do so!*)
But Dobbs is long gone from CNN!!!! ("War on the Middle Class", Dot.commies, "DOBBS AND JOBS NOW" etc etc etc etc) OOH OOH but wait –a-minute! Hasn't Dobbs joined the FOX BUSINESS CHANNEL?

I had hoped he'd return to discuss American **Job Destruction**.

Go to YouTube for Lou Dobbs stories on **American Job Destruction**

Search YouTube: **Lou Dobbs H-1B**

See what turns up. **You should find dozens of stories**

However my last find was two years ago!

STRANGE???? So far Dobbs has yet to confront the issue of **American Job Destruction** that was so much a part of his CNN broadcasts. Has FOX NEWS silenced Dobbs? And why aren't other news organizations addressing American **Job Destruction**??

I offer that Republicans won't broach this issue as they see skilled immigrant labor as a source of cheap labor (**Not unlike Illegal Aliens**). And aren't Republicans caving to their corporate masters claiming we need more skilled foreign professionals?

(Comment: Some of the big supporters of MORE H-1B's are/have been John McCain, Meg Whitman, Carly Fiorina, Tim Pawlenty, Judd Gregg, John Shadegg, Jeff Flake, John Cornyn, Darrell Issa, Lamar Smith, Mitt Romney, Rick Perry, Michael Crapo, and John Huntsman)

Don't believe me?? GOOGLE their name along with H-1b visas (or skilled worker visas) or see what you find on YouTube!) **Interesting both Whitman, Fiorina lost their races in the November 2010 election. Could their support of more foreign labor contributed to their defeats?**

Democrats won't touch this issue either seeing skilled immigrant labor as a possible source to unionize, eventually getting them **Green Cards** and onto US citizenship where they might enticed them to vote DEMOCRATIC. Many Democrats support the myth of the poorly educated American workforce, therefore needing more foreign labor to shore-up our poorly educated workforce.

(Comment: try GOOGLING a few of your favorite Democrats with H-1B visas and see what turns up: ie NANCY PELOSI, Gabrielle Giffords, Hillary Clinton, Charles Schumer, Zoe Lofgren, and Steven Rothman)

But then there is a strange mix (Ralph Nader, Pat Buchanan, Bernie Sanders, Dennis Kucinich, former congressman Tom Tancredo) that see the skilled Immigrants for what it is to the business community.... A source of Cheap Labor - Replacing Americans!

Most of the "LAME-STREAM" media won't touch these issues see their Corporate Leaders feed on Cheap (professional) Labor too HUH? It all appears to be connected.

The Corporate media is therefore giving a free pass to Politicians in:

Screwing the **American** worker!!!!

Looks to me JOBS JOBS JOBS was the issue for 2010 mid-term election.
but then are we really going to confront issues?
Did any of the candidates confront the issues?

Immigration issues are being ignored once again

Published: Sunday, January 24, 2010

<http://www.pottsmmerc.com/articles/2010/01/24/opinion/srv0000007381448.txt>

Maybe you can provide an answer?

and I wonder if our politicians want to confront the correlation between **JOBS, the economy and links to Immigration ??**

Might you look into this issue?

Jobs, the economy should be the big (the BIG) issue in the coming 2012 election but will the candidates connect the dots and **see the impact of Immigration (legal / Illegal) to this issue ??**

<http://www.youtube.com/watch?v=oqx88MyUSck>

Let to play out as at 3:45 into the piece is the **SMOKING GUN** . . . "augment immigration of skilled labor. We pay the highest skilled labor wages in the world. If we would open up our borders to skilled labor far more than we do, we would attract a very substantial quantity of skilled labor which would suppress the wage levels of the skilled, because we skilled are being essentially subsidized by government, meaning our competition is being kept outside the country. But, if we bring in a number of workers to suppress the level of wages relative to the lesser skilled, we will reduce the degree of inequality."
