AT&T Unity e-Meeting

**Wednesday May 27
9pm EDT**

**Pre-register at:
www.cwaunion.tv**

Our second National Unity e-Meeting to discuss the ongoing contract negotiations with AT&T will happen one week from today -- on Wednesday, May 27th at 9 pm EDT. Register now to attend this exciting and important event: <http://www.cwaunion.tv>

CWA's bargaining teams continue to work hard to reach an agreement with AT&T, but as of today we remain far apart from the company on some key issues. During the National Unity e-Meeting we will provide updates on the negotiations with AT&T. CWA President Larry Cohen, Secretary-Treasurer Jeff Rechenbach, and the Vice Presidents who are involved in bargaining will join me to answer questions from CWA members like you about the issues that matter most. To participate in the e-Meeting, you must register in advance. Take a moment to sign up and submit your question right now:

<http://www.cwaunion.tv>

We won't be able to get to every question, but we do look at all of the submissions to get an idea of what issues our membership is most concerned about and what we should address during the e-Meeting.

I am confident that our strength and solidarity will help us achieve the contract we deserve. Over 90,000 supporters signed our petition demanding a fair contract and we have been delivering those signatures to AT&T at events across the country. And because of the initiative we launched at our last e-Meeting, Members of Congress are weighing in with their support. I'm looking forward to speaking with you next week. Please don't forget to register in advance and submit your question. <http://www.cwaunion.tv>

In Unity,

Annie Hill
Executive Vice President
