

# Is the American Dream Disappearing?

Author Visit - Sunday November 14, 2:00-4:00 PM

Barnes & Noble is pleased to announce that author **Ken Buchdahl** will be visiting their store to discuss and autograph his powerful new book.

## ***DISMANTLING THE AMERICAN DREAM***

Globalization, Free Trade, Immigration, Unemployment, Poverty, Debt, Foreign Dependency, and More

Starting in the 1990's, the U.S. began to witness a lingering recession that is eroding prosperity for the average American family. Is this the typical recession from which we always recover, or could this downturn represent the early stages of a far greater American tragedy?

After studying the origins of American prosperity the author, Ken Buchdahl, presents a very timely, interesting and compelling story that reveals how many of our government's policies, albeit originally instituted with the best of intentions, may have taken us down some very dangerous roads. As a result, the American Dream might just be slipping away.....

Mr. Buchdahl is a financial business leader with 30 year's of experience. He currently works for a top Fortune 500 company, where he manages several ventures with some of the world's largest international corporations. His knowledge about America's dismantling goes far beyond the act of investigative research. He actually knows how the game is being played.
