

"KEEP NORTH AMERICAN REFINERIES OPEN CAMPAIGN"

The attached folder contains a group of documents USW Local 10-234 developed for use in gaining support from Local, State and Federal Representatives, as well as, Community Support Letters. There is a community outreach letter to ConocoPhillips CEO Jim Mulva. Please forward it to all of your contacts and help us gain support across the Country, highlighting a loss of good paying Middle Class Jobs - Keeping North American Refineries Open.

Should you have any questions please do not hesitate to call or email any of the following contacts;

Denis Stephano - djstephano1210@aol.com - (484) 716-6242

Jonas Dauber - bk1964727@gmail.com - (484) 524-3305

DeVon Crawford - uswlocal10234@hotmail.com or calgonforpep@aol.com - (610) 574-2052

The following link and intro letter can be sent to all to support our online petition effort;

Sisters & Brothers:

East Coast Refineries and American jobs are under attack by the influx of imported refined fuels. This is a major National Security issue along with being a travesty to the Middle Class during our current economic crisis. Our government should import tarriff on refined imported fuel products (gasoline, home heating oil, low sulphur diesel, jet fuel, etc) is needed is needed to create a "fair trade" instead of "free trade".

So I signed a petition to The Pennsylvania State House, The Pennsylvania State Senate, Governor Tom Corbett, The United States House of Representatives, The United States Senate and President Barack Obama, which says:

"I am a registered voter and taxpayer that supports our local Oil Workers in the Tri State area (Pennsylvania, Delaware and New Jersey). I am extremely concerned about ConocoPhillips closure of their Trainer, Pa refinery in addition to Sunoco Oil Company's announced shutdown of their Philadelphia and Marcus Hook, Pa refineries.

The closing of these 3 refineries will be not only be a devastating blow to those communities and school districts in South Eastern Pa, but the whole Tri-State Area as well. Impact studies show that up to 10 jobs will be impacted for the loss of every 1 refinery job, and with the 2,000 jobs that will be lost immediately with the closure of these plants, that's 20,000 good paying middle class jobs lost, in a time when our economy can least afford it.

I support the creation of a "Fair Trade" tariff, instead of the "Free Trade" that is putting our workers and our National Security at a disadvantage with other countries. We shouldn't

have to rely on foreign fuel to supply our Armed Forces. We should not have to live like nor compete with third world countries for our jobs.

Will you sign the petition too? Click here to add your name:
