**Make your voice heard!** Sign the [online petition](#) to TSA Administrator Hawley and let him know that the American public will not stand for taking a big step backwards in our aviation security system. Join us in demanding that we maintain the Prohibited Items List and keep all dangerous items that can wreak havoc in the hands of a terrorist or even a disruptive passenger off our nations airlines. Visit [LeaveAllBladesBehind.com](#)

**Tell your elected Representatives** that they must support S. 2083 and HR 4452 the "Leave All Blades Behind Act" to prevent the TSA from allowing these potential weapons back onboard the aircraft. [Click Here to Take Action](#)
