

The **AT&TACK ON MIDDLE CLASS JOBS**

's **No Idol Threat!**

Join the Communications Workers of America (CWA) for a candlelight march on **Thursday, July 16** to shed some light on AT&T's attempt to cut the healthcare benefits for over 115,000 workers and our families across the country. AT&T is a highly profitable company. They made \$12.9 ¹billion in profits last year alone and are on track to make huge profits again this year.

So, why is AT&T trying to cut our healthcare? AT&T is the largest unionized company in the world. Instead of joining CWA and being a leader for healthcare reform, they are leading an ideological fight to diminish good, union jobs. CWA has fought hard over generations to move our members into the middle class. We've sacrificed wages, deferred retirement and other benefits to protect our families with decent healthcare coverage.

Even Wal-Mart ²has joined the battle for healthcare reform! How sick is that?!

Thursday, July 16

**Meet at the AT&T Tower
1150 So. Olive Street, L.A.**

Gather between 4:30 & 5:00 p.m.

**Then we march to Staples Center
to greet thousands attending the
American Idol Concert sponsored
by (you guessed it) AT&T.**
