

**CWA Members Have a Clear Message
for Congress:**

DON'T TAX OUR BENEFITS

The Senate is about to vote on a bill that would tax our health care benefits.

CWA families don't have "Cadillac" health care plans, but our plans would be taxed just the same. That means employers would cut our health care benefits to avoid the tax and our health care costs would go up. It's a bad idea.

**Call your senators now at
(888) 580-0792.**

Tell them:

- We need health care reform, but it should not be paid for by taxing our benefits.
- All employers should provide health care.
- And the wealthy should pay their fair share too.
