

An Important Announcement From The Alliance

Due to popular demand, the Alliance is pleased to announce that we have created two new sections of the on-site College of DuPage, Allied Health 110, Biomedical Terminology class. This class is the pre-requisite class for the College of DuPage's Physician Office Coding and Billing Certificate Program. These classes will meet on Wednesday evenings, 4:00 p.m. until 8:00 p.m., March 30th – June 1st; or on Saturdays 9:00 a.m. until 1:00 p.m., April 2nd – June 4th.

We require a minimum of fifteen enrollments to run the class. Individuals registering for any class with less than fifteen individuals will be given the option to transfer their registration to any open class or use their Alliance Pre-Paid tuition to attend the class at a community college near their home.

Since these classes are for personal development you cannot take these classes on company time. Interested individuals with scheduling conflicts should seriously consider using their Alliance Pre-Paid tuition benefits to take this class on the college's main campus or at one of their satellite campuses. For assistance with Alliance Pre-Paid tuition, please contact your local Life Work Planner, George Milton at george_milton@hotmail.com. or call him toll-free at 888-992-7979. Unfortunately, due to funding guidelines we are unable to honor any registrations from AT&T temps. Sorry.

Deadline to register for these two classes is 5:00 p.m. Wednesday, March 15. You can either fax in your registration to 630-810-7412 or register online at www.employeegrowth.com. Click on the "Registrar" tab and then follow the prompts.
